

What kind of leader will you be in 2023?

Listen to your team
and act on it

Look outside the Trust
for ideas and solutions

Help your team
members to progress

Let your team be
part of the decision
making process

Let your team know
how they make
a difference

Get to know your
team and what
motivates them

Don't be scared to
try new ideas

Focus on the things
you can control

Get yourself
a mentor

Get to know
the details before
making any
adjustments

Understanding the
roles of the people
in your team is
so important

Starting your day
positively helps
get the best out of
people in your team
